It's called grouping or stacking, an effective memorization technique that uses the connotations between words to solidify your mind. We'll start with phrases that are common verbs in English, and then common prenupts that you might already recognize. Then we'll act on common phrases and phrases for money, body parts, food and nature. English Idioms with Common Verbs1. Shoot books Word for word, hitting books means physically hitting, punching or slapping your reading books. However, this is a commonly used phrase among students, especially when American college students have a lot of training to do. It just means working and it's a way of telling your friends you're going to study. There may be a final exam, a intermediate exam and even an English exam. I'm sorry, but I can't watch a game with you tonight. I've got a big test next week! 2. Sack HitJust like the first idiom, this real meaning will be physically hit or beaten in a sack (a large bag is often used to carry bulky things like flour, rice and even soil). But actually hitting a sack means going to bed and you use it to tell your friends or family that you're too tired, so you're going to sleep. Instead of hitting a sack, you can say hit the hay. It's time for me to hit the sack, I'm so tired. 3. Twisting someone's arm means to twist someone's arm, literally take a person's arm and turn it around, it can be really painful if you take exactly word-for-word. If your arm is bent, it means someone is doing a great job of convincing you to do something you don't want to do. And if you succeed in bending someone else's arm, it means you're very good at convincing them, and they finally agree to do something after you've begged them. Jake, you really should come to the party tonight! I can't, you know I have to hit books. Come on, you have to come! It's going to be a lot of fun, and there's going to be a lot of girls there. Please come? Pretty girls? Okay, you twisted my arm, I'll come! 4. Stab someone in the back if we take that phrase literally, we could get ourselves into a lot of trouble with the police, because that means taking a knife or a sharp object and putting it on a person's back. However, as a phrase, stabbing someone in the back means hurting someone who is close to us and trusting us by secretly betraying them and breaking their trust. We call the person who did this a knifeman. Did you hear Sarah stabbed Kate in the back last week? No! I thought they were best friends, what did he do? He told his bosses that Kate wasn't interested in getting promoted at work, and that Sarah took it. Wow, that's the biggest betrayal! No wonder they're not friends anymore. 5. Lose touch Literally, this is now capable of touching or feeling with your fingers or hands Means. But losing touch is actually. As a matter of fact. You lose a talent or talent that once had things to do with people or situations. We usually use it when you're good at a certain skill or skill, but then things start to go wrong. I don't understand why the girls here don't want to talk to me. Looks like you've lost your connection to women. No, they loved me, what happened? 6. Sit tight is a great example of how you can't translate phrases word for word in English. It literally means that you can sit tightly squeezing your body-if you would be very uncomfortable, not to mention that it would look really weird. But if a person wants to sit firmly on you, don't wait patiently and do nothing until you hear the other way around. Mrs. Carter, do you know when the test results will be open? Who knows about Johnny, sometimes they get out fast, but it might take a while. You're just going to have to sit and wait. 7. Pitch inThis expression actually has no meaning if you try to take it literally. However, figuratively speaking, it means contributing (giving) or participating in something or someone. So if your dad wants everyone to join the family this weekend and help clean up the backyard, that means he wants everyone to participate in efforts to clean the garden and get things done faster. What are you going to get Sally for her birthday? I do not know. I don't have much money. Maybe we can all help him and get something great. The conversation above suggests that each of Sally's friends should contribute some money, so she can afford to buy her a bigger and better gift together.8. Cold turkey GitSound weird? You're right, it is. How can a person eat a really cold turkey? A man can't turn into the Thanksgiving.To we love to eat for celebrations like Christmas and Christmas. It's the 20th century. It contains pale (very white) skin and creepy (small little bumps on the skin when we're cold or sick). Should I bring your mother a glass of wine? No, he stopped drinking. Really, why? I do not know. A few months ago, he announced that he was quitting drinking one day. Did he leave the cold turkey? Yes, just like that! 9. Face musicIn literal terms, facing music means turning your body in the direction of music and standing in front of it. But if your friend or family tells you to face the music, it means a lot harder. This means dealing with the reality of the face or the reality of the situation and accepting all the consequences, good or bad (but mostly bad). Maybe you're avoiding something because you're not sure or you're afraid of it. Maybe you lied to your teacher, and he found out the truth, and now you have to face the music and accept the punishment. I don't understand why I failed math. You know you don't work hard, so you're going to face the music and go back to class next semester. 10. If you ring a bell, if you just look at the true meaning of ringing a bell, it's just this: You might be ringing the school bell to tell students it's time to go to class or when it's time to ring someone's doorbell. But the phrase means someone's talking about something familiar to you, maybe you've heard it before. In other words, when someone says something you've heard in the past, alarm bells start ringing and you try to remember how or why that name or place sounds familiar. You met my friend Amy Adams, didn't you? Hmm, I'm not sure, but that name evokes something. He's the one who went to Paris last year? 11. Blow off steamIn realityA person can't be blowing steam (hot rising air from boiling water)-it can only be electrical equipment, like electric jugs (device for boiling water for coffee). So what does blowing a person's steam mean? If you're feeling angry, stressed or having some strong feelings and want to get rid of them to feel better again, you'll blow steam by doing something like exercise to get rid of stress. Why is Nick so angry and where did he go? He got into a fight with his brother, so he went running to blow the steam. 12. Stop chasing. When a person uses that phrase, he's telling you to hurry up and get to the important part without all the details. Be careful how you use that phrase, because if it's used when you're talking to someone like a college professor or your boss, it's rude and disrespectful. If you're talking to a group of people like your employees and you say I'm going to stop chasing, that means there are a few things that need to be said but there's very little time, so you jump into important sections for everyone to understand. Hi guys, we don't have much time here, so I'm going to cut the chase. We've been having big problems at the office lately.
